Profile

Goal oriented with a resourceful attitude, adaptable to change and new technologies. Passionate about life long learning and opportunities to grow and enhance my skills. Enjoy problem solving and working in a collaborative environment. Junior developer interested in enhancing the efficiency of products and services through application development. Transitioning from designing business forms to creating web based solutions for business needs. Great customer service skills acquired through interfacing with sales teams in an office setting and customers in a public setting.

Presented award to volunteer for exceptional dedication and hard work at DSBG.

Coordinated volunteers and orchestrated large scale teak refinishing project at DSBG.

Spear-headed the staging of all equipment for the grand opening of the children's garden at DSBG in 2014.

Improvised ramp access for wheelchair bound patron allowing access to wedding ceremony, with 10 minute notice.
